Works Cited - Web Sites

Directions: Using **Noodle Tools**, create the Works Cited for the project. 3 total sources will be cited.

After Mrs. McGarvey's presentation, be sure to keep a hard copy of each document used to research Part II of the Hurricane Projection Map Project. Web addresses are needed to create the citations in Noodle Tools.

The checklist below will help you bring the Works Cited document to a final copy.

WORKS CITED CHECKLIST

- Transfer the Noodle Tool finished Works Cited to a Google Doc.
- Title* - the Google Doc must be titled Works Cited.
- Print* – have Mr. Reggio check the final copy before printing. Next, print a copy, resize, and affix the Works Cited to the front side of the projection map.
